

Engen Petrolatum White

White Petroleum Jelly

Description

Engen Petrolatum White is the Engen brand name for the renowned white petroleum jelly. It is also known as Standard White Petrolatum. It meets the most recent British and European pharmacopoeia requirements for pharmaceutical grade petrolatum.

Application

Engen Petrolatum White has no odour or taste, and its high purity and inertness make it the basis for many ointments, salves, veterinary preparations and cosmetics. It is also extensively used in the food processing, plastics, rubber, tobacco, paper and rope industries. The product is also commonly used as a general light duty lubricant around the house and is suitable for use as a corrosion preventative on motor car battery terminals.

Engen Petrolatum White is available in 500-gram plastic jars from Engen depots countrywide.

Typical Physical Characteristics

Engen Petrolatum White	
Density @ 20 °C, kg/l	0,852
Colour Lovibond (2" cell)	LT 2Y
Drop Point, °C	42 - 60
Penetration (cone) dmm @ 25 °C	150 - 180
UV Light Absorption @ 290nm	0,12
Foreign Organic Matter	conforms
Sulphated Ash, % m/m	<0.1
Alkalinity/acidity	conforms
